

Checklist - exchange students

By printing this document and completing the workflow in Mobility online, the student confirms to have read this document carefully and to fulfill all the obligations.

This document does not have to be handed over but is a checklist for personal use.

1 Documents to complete

TO DO	DONE
BEFORE	
Application displayed – This step has to be executed in the workflow in Mobility online to be able to proceed (see step “display application”). It gives a short overview of the application you just entered.	
CV and motivation letter – can be uploaded <i>optionally</i> in Mobility online in the step “Upload optional documents (if asked by your international coordinator in your study programme)”. These two documents (and maybe more) do need to be sent outside the system to the international coordinator in your study programme according to the rules and deadlines in your study programme. Contact your international coordinator for more information about the procedures for nomination in your study programme, because they are different from the procedures for grant application and registration in Mobility online.	
Paper or recordings – if applicable these can be uploaded optionally in Mobility online in the step “Upload optional documents”. In some of the study programmes at AP it is necessary to deliver a paper about a certain subject or in some cases recordings. Contact your international coordinator at AP to find out what you need to do.	
Deadlines in study programme – next to the deadlines for grant application, make sure to know the deadlines in your study programme for applying to go abroad. Contact your international coordinator in your study programme to find out. This is a complete separate procedure OUTSIDE of the system Mobility online.	
OLS-language assessment before departure (only for exchanges of minimum 14 days) - This part of the procedure is handled outside Mobility online. All students going on Erasmus exchange (including Erasmus zero grant students), are recommended to take a language assessment BEFORE the start of their exchange. You will need to make the assessment in the	

instruction or working language during your exchange, on condition that this is one of the following languages: Bulgarian, Czech, Danish, German, Greek, English, Estonian, Spanish, Finnish, French, Irish Gaelic, Croatian, Hungarian, Italian, Lithuanian, Latvian, Maltese, Dutch, Polish, Portuguese, Romanian, Slovak, Slovenian and Swedish (or additional languages once they become available in the Online Linguistic Support (OLS) platform), with the exception of native speakers. In order to be able to send you an invitation for the language assessment, we will base ourselves on the language entered by you for your approved destination in the application form and in the step “Confirm language” in Mobility online. You will receive an invitation for a language assessment for that particular language (if any of the above mentioned) from the OLS-platform. The same language will be mentioned as instruction/working language on the Digital Learning agreement. You should complete this assessment BEFORE the start. This is a recommendation. Every student not reaching level C2 (highest level), will receive an invitation for an online course, to improve the language knowledge. At the end of the mobility period, a second assessment can be done to measure if the language level has improved (see end administration). There are no further consequences linked to the results of the assessments.	
Digital Learning agreement for studies (in case of an Erasmus SMS and SBM) – the DLA has to be created through the DLA-steps in your workflow in Mobility online. When you will study abroad you will have to make a digital learning agreement which mentions the courses you will take abroad and the courses that you will not take at AP during that period because you are abroad. You will be earning the credits of the courses you will not take at AP, when successfully completing all courses abroad. The DLA has to be signed by the student and responsible persons in sending and receiving institution before the start of the study exchange. The signatures are all placed digitally. Once the DLA is signed you will be able to view it at all times through the step in your workflow. Once the DLA is signed, the coordinator will complete the Annex. In this document the relation between the courses host and home will be made, which is important information for you. Make sure to check this document well once made. It will be visible through your workflow as well. Read the Guideline Mobility online for assistance in completing the DLA: SMS: https://student.ap.be/erasmus-sms-beursaanvraag SBM: Beursaanvraag Erasmus Short Blended Mobility (BIP of Other) AP Intranet Studenten	
Learning agreement for traineeships (in case of an Erasmus SMT - Traineeship) – the LA has to be created through the LA-steps in your workflow in Mobility online. When you will do a traineeship abroad you will have to make a Learning agreement which mentions all details about your traineeship. The LA has to be signed by the student and responsible persons in sending and receiving organization before the start of the traineeship exchange. Read the Guideline Mobility online for assistance in completing the LA: https://student.ap.be/erasmus-smt-beursaanvraag	
AP Traineeship agreement (AP stagecontract) (in case of a traineeship) – this document mentions all details about your traineeship. The format of the document cannot be printed from your workflow BUT will be provided by your international coordinator or traineeship coordinator in your study programme OUTSIDE the system Mobility online. It is this coordinator that will help you completing the document. Once the AP traineeship agreement is ready and signed by all responsible persons, you will have to upload it in the step “Upload AP Traineeship agreement (= AP stagecontract)” in your workflow. The traineeship agreement IS NOT the learning agreement for traineeships NOR the grant	

agreement (=beurscontract). It is a different document.	
Grant agreement (Erasmusbeurscontract) – this document is a contract between you and the AP Hogeschool about your Erasmus grant and has to be ready before the start of your exchange. Once you completed the step “Confirm information entered in Mobility online (for making the GA), the AP International office will start making the Grant agreement for you. Make sure all entered information is correct, before confirming the step, as afterwards nothing can be changed anymore. (except for the (D)LA steps, they remain accessible until the (D)LA is signed). All the information you entered in the application data in Mobility online will be used automatically to complete the Grant agreement. Once AP International office has made the GA, you will receive an email with a draft of the Grant agreement attached. As a next step you will be able to “approve and sign the Erasmus Grant agreement digitally” by clicking the corresponding step in your workflow and ticking the box that you approve and sign the GA. When all parties signed, the GA can be downloaded from your workflow at any time. A grant agreement is also made even if you have not been awarded a grant. The grant agreement will state in that case that you are a Zero grant student. In case your period (start and end date) mentioned on the grant agreement needs to change after the GA has been signed, this always has to be approved by the AP International office and the international coordinator at AP. You have to send a formal request for this change per email to veronique.blockhuys@ap.be. Changing the dates in Mobility online DO NOT count as a change of the Grant agreement. Your question will be discussed and you will receive an answer as soon as possible. No changes to the period are allowed later than 1 month before the initially mentioned end date on the grant agreement.	
Application form contribution costs language course – can be printed from your workflow in Mobility online if applicable. Once printed you will have to upload this completed and signed with the necessary attachments in the workflow again. The steps concerning this contribution will only become visible if you marked this in your application form. With this form you can ask for a contribution in the registration costs for a language course in the language of destination or the instruction or working language. For the conditions in order to be able to apply for this contribution – see application form contribution costs language course. This is possible as long as we have sufficient funding.	
Rent my room-form – can be printed from Mobility online if applicable. Once completed you will have to upload this back in the workflow again. The student completes this form if he wishes to rent his room in Antwerp to incoming students. AP International office can pass this information to incoming students. The student himself is responsible for checking whether this is allowed and making all arrangements if applicable.	
ICE-file – online form that has to be completed obligatory in Mobility online. This form contains information in case of emergency. It has to be completed BEFORE the start of the mobility.	
Print Emergency card – once you completed the ICE-file, you will be able to print this emergency card with a summary of the information you entered in the ICE-file. Print this card and take it with you during your exchange.	
Reconfirm Study/Traineeship information (destination, city ...) – complete this step with correct information about your study/traineeship ONCE you have all correct information about your study/traineeship exchange. Only after completing this step your application can be provisionally approved in Mobility online by your international coordinator.	

Reconfirm study/traineeship and travel dates – in this step you will have to check and reconfirm or change your study/traineeship dates. These are the dates when your exchange starts and ends, so travel dates excluded. In this step you can also enter separately your travel dates, which are the dates you travel to and from the host country. You can also indicate in this step whether you are going to travel green, which means by bus or train. If that is the case, you can receive a top-up of 50 euro (if you have been awarded an Erasmus grant) if the green transportation can be proven with travel tickets from both directions.	
DURING	
Changes to your original (Digital) Learning agreement (if applicable) - Once your period abroad has started, and in case you need to make changes to your original (D)LA, you will have 5 weeks to process the changes and have them approved. For more information about this procedure – read the Guideline of Mobility online.	
Grant agreement (erasmusbeurscontract) - In case your period (start and end date) mentioned on the grant agreement needs to change after the GA has been signed, this always has to be approved by the AP International office and the international coordinator at AP. You have to send a formal request for this change per email to veronique.blockhuys@ap.be. Changing the dates in Mobility online DO NOT count as a change of the Grant agreement. Your question will be discussed and you will receive an answer as soon as possible. No changes to the period are allowed later than 1 month before the initially mentioned end date on the grant agreement.	
AT THE END	
Proof of stay – can be printed from Mobility online at the end of your exchange. Has to be completed and signed by the student and the responsible person in the receiving institution/organisation. Once completed and signed, the document has to be uploaded by the student in Mobility online. This document has to be completed and signed by your receiving institution/organisation in the last week of your study or traineeship abroad (NOT earlier). This document proofs your Erasmus period (start and end date). VERY IMPORTANT: This document is an annex to the Grant agreement (erasmusbeurscontract). At the end of your Erasmus exchange the actual grant amount will be calculated (in case you have been awarded a grant) according to the following rules: If the period mentioned on the Proof of stay lays between the start and end date mentioned on the grant agreement (this means that the period is shorter) the grant will be calculated based on the period mentioned on the proof of stay. This means that the grant amount will be reduced compared to what is mentioned in the grant agreement. If the start date on the proof of stay is earlier than the start date on the grant agreement and/or if the end date on the Proof of stay is later than the end date on the grant agreement, the grant will be calculated based on the dates mentioned on the grant agreement. The grant amount will never be raised compared to what is mentioned in the grant agreement. The minimum (see intranet – tab “Duration”: https://student.ap.be/en/erasmus-sms-details-about-grant-programme) and maximum duration of your Erasmus exchange need to be respected at any time, else the grant will need to be refunded completely. Online exchange periods from the home country can never be funded.	
Transcript of records = TOR (in case of a study (SMS or SBM)) – the Transcript of records is a document which the host institution is obliged to deliver to you at the end of your exchange (make sure to ask for it) and which mentions your results of the courses abroad. The courses mentioned on the TOR need to correspond with your final (Digital) Learning agreement. The host institution usually sends the document to AP, but it is best to inform about their procedure	

before departure. The host institution normally has about 5 weeks to send this document. The international coordinator at AP needs to receive the original and a scan of the document needs to be uploaded in the step "Upload Transcript of records" at the end of your workflow.	
Traineeship certificate (in case of a traineeship) – You can print this document from your workflow in Mobility online at the end of your exchange. You have this document completed and signed by the responsible person in the receiving organisation. Afterwards you upload a scan of this document in Mobility online in the "upload-step". The original document you send to your international coordinator at AP.	
Erasmus+ participant survey – At the end of your exchange you will receive an email from the European Commission, to complete an online survey about your Erasmus experience. This survey is MANDATORY. We will check if you have completed it. You will receive an invitation at the end of your stay abroad.	
Second language assessment (OLS-tool) (only for exchanges of minimum 14 days) - You can complete a second language assessment (if you did the test before departure) at the end of your exchange and if your level of the first assessment was lower than C2: you will automatically receive an email from the OLS-platform. The date of invitation for the second language assessment is based on the end month you entered in the OLS platform before making the first language assessment. Make sure to adjust this end date (month) in the OLS platform, once you know your exact Erasmus period. If you keep this up-to-date you will receive the invitation on time. Normally the invitation for the assessment is sent on the 15th or 16th of the end month of your mobility you entered in the OLS-platform. If you do not receive the invitation automatically – just login to the OLS platform and you will have access to the second language test if you have passed the 15th or 16th of the end month you entered in the OLS platform.	
Financial questionnaire – At the end of your workflow we want to ask you to complete a short financial questionnaire concerning your exchange. This questionnaire contains questions about the financial side of your exchange, useful for future students going abroad to the same country/destination/institution. We also ask you to upload a picture there about your exchange, which we can use for communication.	

2 Useful practical information

TO DO	DONE
Make a list of contact data of the host institution or organisation: name, address, email, phone number ...	
Contact data of the responsible person in the host institution or organisation: name, address, email, phone number	
Short description of the study or the traineeship (see digital learning agreement for studies or learning agreement for traineeships + AP traineeship agreement).	
Practical information about the lessons or traineeship: address, course schedule, working hours, holidays, exams, tasks, language (level), start and end date, evaluation and monitoring plan, costs, list of books to buy ...	
In case of traineeship: not all study programmes at AP allow to earn money with	

your traineeship. Check with your international coordinator whether this is allowed or not. If you earn money, the regular AP traineeship agreement cannot be used. If the agreement needs to be adjusted, our legal advisor has to give her approval. Also when the traineeship place requires to use their agreement, our legal advisor has to give her approval. Contact your international coordinator in that case. If you earn money, you will also have to investigate the consequences concerning taxes (f.e. in which country (countries) do you have to report this?) and the possible consequences concerning child allowance. This is your own responsibility. Check http://www.kamiel.info/ for more information.	
Registration at AP Hogeschool is still required, even if you go abroad for an exchange. Do not forget this. This is your own responsibility.	
If you receive a scholarship from the Flemish government (Vlaamse studietoelage), do not to forget to apply for this scholarship, also when you go abroad. This is your own responsibility.	
Do you need to apply for a visa for your destination or an international passport? Look up in time what you need to do. These procedures are very long, complicated and expensive sometimes. Start this investigation in time. Do not start these procedures before you have an official approval from your study programme about your exchange in order to avoid unnecessary expenses. Check http://diplomatie.belgium.be/nl/ or http://www.kamiel.info for information about going abroad.	

3 Insurance

TO DO	DONE
Liability insurance and accident insurance - all students are insured by registration at AP Hogeschool for damage at the traineeship/during school activities and for accidents to and from the traineeship or school. If you have questions, please contact verzekeringen@ap.be or see Intranet: https://student.ap.be/verzekering In case of a traineeship: according to Belgian civil law the receiving organization/enterprise is liable for the faults or negligence of trainees working under their direction and supervision, except for fraud or gross negligence or minor negligence happening rather usually than accidentally.	
Health insurance – the student is responsible himself for a good health insurance, also abroad. You contact your national health service and you report that you will be abroad for an exchange for a certain period. You check whether your current health insurance is sufficient and if not you take out the necessary extra insurances.	
Travel and assistance insurance – AP offers all students going abroad for an exchange a travel and assistance insurance for medical costs after an accident or illness abroad if the student is registered in Mobility online: a maximum of 2500 EUR for ambulant costs and 500000 EUR in case of hospitalization. This	

insurance covers repatriation after illness, accident or death and provides assistance abroad. Not valid for students going to their home country. See Intranet: https://student.ap.be/verzekering	
The student is responsible himself to investigate whether the insurances of AP are sufficient in combination with its personal insurances and whether all the insurances offer enough coverage during the study or traineeship. This during the traineeship and school activities as well as during the personal time. If necessary the student takes out extra insurances.	

4 Accommodation

TO DO	DONE
Contact data of the responsible concerning accommodation in your host institution or organisation	
It is recommended that the student arranges the accommodation abroad before the start. In case of SBM inform well with your international coordinator what the advice is, sometimes you stay in group at the same place.	
What is provided in the accommodation and what isn't? Is the kitchen private or shared, bathroom, tv-room, washing machine ...?	
What is the rental price + guarantee, how long do you need to rent (year, month, holidays ...), payment arrangements, what is included in the rental price (sheets, water, gas, electricity ...)	
What does food cost – Can you eat at school? Can you cook yourself? Which budget do you need?	
Electrical supplies – Which voltage? Type of sockets? Do you need an adapter?	
Safety aspects – Make sure you know everything regarding your accommodation, the distance to the school or traineeship, the condition of the building and the room, do the windows have bars (often recommended in developing countries), door lock, if possible check the accommodation in real life beforehand.	
Beware of fraud! If you book an accommodation abroad, always beware of fraud. Unfortunately not all advertisers are trustworthy. Fraudsters usually advertise rooms, studios or apartments to very attractive rates. The photographs often show very luxury accommodations. The so called landlord often asks to pay (a lot of) money upfront. A good way to check if the advertisement is genuine is to google the landlord's name or phone number or the address of the accommodation. Always bear in mind that if it looks too good to be true it probably is too good to be true! Advise concerning reservation through Airbnb - check the recommendations on the website of Airbnb itself:	

https://www.airbnb.be/trust?locale=nl https://nl.airbnb.com F.e. never make payments for a reservation through Airbnb outside the website of Airbnb.	
--	--

5 Safety regulations

TO DO	DONE
Check the travel advisory of “foreign affairs” at regular basis on http://diplomatie.belgium.be/nl/Diensten/Op_reis_in_het_buitenland/reisadviezen and discuss this immediately with your international coordinator in your study programme if there are problems.	
Contact the contact person in the host institution or organisation or an experience expert (f.e. ex-student) with questions regarding your destination	
Make sure you get the necessary vaccinations – see website of the “Insitute of Tropical Medicine” at www.itg.be – Travel Health	
Check STD/Aids prevention measures – depending on your destination there is an increased risk	
Prepare a first-aid kit to take with you. Depending on your destination: do you need certain specific medication, such as malaria?	
Accommodation – make sure your rented accommodation is safe (see also part above). Do not live alone in a house in an “at-risk country”. Make sure you have social control.	
Clothing – in certain countries it is necessary to adjust your cloths to the local habits.	
Watch your money – do not carry large sums of cash money. Divide this between different places. If you use a credit card, make sure you have the phone number to block the card in case of theft.	
Make sure you have an English card which mentions your blood group + the necessary contact persons – scan this card as well and mail it to yourself	
Make also scans of your identity card, passport, flight tickets so that you have a copy at any time.	
Keep important documents in your hand luggage.	
Take some sterile needles with you in case of at-risk countries.	
Contact the home front on regular basis.	
As a student going abroad, I declare to: • not endanger myself • VERY IMPORTANT: register myself on the website of Foreign affairs: https://travellersonline.diplomatie.be/ • make sure to check the insurances offered by AP and investigate which insurances I need to take out myself in order to be well insured in all circumstances, also in my private time. The insurances of AP might not be sufficient. Check this well for your specific destination and period abroad. You will	

have to be insured at all times for your entire period abroad (study/traineeship related activities and private activities) - to investigate the country of destination, the region well in advance: politics, social situation, culture, safety, health, actual situation. - follow all instructions very well coming from my international coordinator in the study programme, the AP International office, local responsible contact persons abroad etc. - know that there might be some big cultural differences abroad that I will have to face. F.e. concerning gender inequality (rights, dresscode etc.), other legal regulations concerning discrimination, homosexuality etc. than in your own country, use or possession of (soft) drugs is mostly strongly forbidden with severe punishments etc. - not to take part in demonstrations and avoiding those (for safety reasons) - avoid 'no go'-zones	
---	--

6 Costs

TO DO	DONE
Study material	
Preparation for the study/traineeship	
Costs for visa	
Accommodation	
Travel costs	
Vaccinations	
Extra insurances	
Costs for food, excursions	
Are you able to apply for a grant for your exchange? Check the deadlines!	

Questions regarding the content of your study or traineeship abroad: contact your international coordinator in your study programme or your traineeship coordinator.
 You can find a list of the international coordinators on Intranet: <https://student.ap.be/internationale-coordinator-opleiding>.
 Questions regarding grants, administration or Mobility online: contact the AP International office – responsible for outgoing students – veronique.blockhuys@ap.be - +32 3 220 57 37.
