STAY CALM – YOU ARE NOT ALONE

Analyse the situation

- Facts (who, what, how, when, actions already taken?)
- Critical or not?
- Possible solutions?
- Who can offer a solution?
- Think about the questions that you have
- Anticipate the questions you will get from persons trying to help you
- What is the number where we can reach you?

Try to find a witness who can tell your story and write down their name and phone number

Call in someone's help (the European emergency number is 112; complete this file with the emergency number for a stay outside of Europe:)

1. Inform the police
2. Inform your contact person at the home institution (= AP)
3. Inform your family
4. Contact your host institution abroad

Are there proofs? If yes, keep them with you. Take pictures of the situation if possible, etc.
